

ASRM'S CME REQUIREMENTS FOR PRESENTATIONS WHAT SPEAKERS SHOULD KNOW

As an accredited continuing medical education (CME) provider, ASRM is proud to provide professional education opportunities for all our members. To do so, we must comply with the Accreditation Council for Continuing Medical Education (ACCME) requirements and Council for Medical Specialty Societies (CMSS) guidelines. One of these requirements is to ensure that all ASRM CME activities are free from any commercial bias. This includes all slides used by speakers/presenters.

- ASRM **requires** speakers in CME sessions to use our **ASRM PowerPoint template** for at least the first four slides in their presentations.
 - ASRM CME sessions include Plenary, Postgraduate, Symposia, Interactives, & Clinical Sessions
 - The first four slides include:
 - **Title slide**
 - This should include your lecture title, your name & credentials, and your affiliation/institution.
 - **Learning Objectives slide**
 - Include 2 or 3 learning objectives for sessions 3 hours or less. Include 4 or more learning objectives for session 4 hours or more. Use action verbs. The template includes a list of suggested verbs.
 - **Disclosure slide**
 - Per ACCME guidelines, speakers should disclose **any** financial and commercial relationships as well as any non-FDA approved/off-label uses of devices or medications by both including them in a list on the disclosure slide in their presentation and stating at the beginning of my presentation. Disclosure slides should include the name and nature of relationship, with no company logos or trade names.
 - **References slide**
 - If you cite sources for content, including images, you must provide a reference list that includes all your cited materials.
 - You can download the ASRM PowerPoint Template from the [Presenter Resources](#) page.
- In compliance with ASRM and ACCME guidelines:
 - Do not use corporate/industry names, logos, ads, or promotional content of pharmaceutical and manufacturing companies in presentation(s).
 - Only generic names when discussing drugs/products is allowed.
 - Speakers must not actively promote or sell products or services that serve their professional or financial interest during their session.

Failure to comply with the above guidelines will result in a presenter not being considered for any activity at the ASRM Scientific Congress for the succeeding two years.
