Disclosure of Relationships with ACCME-defined Commercial Interests

ASRM recognizes that directors, officers and committee members may have diverse professional and financial interests that could lead to actual, perceived, or apparent conflicts or dualities of interest. ASRM as a 501 (c)3 organization is subject to IRS, state laws, and other regulations requiring a high degree of disclosure and transparency; and as a result, maintains a Conflict of Interest Policy and Procedure to which I am subject.

As a sponsor accredited by the Accreditation Council for Continuing Medical Education (ACCME) and as a member of the Council of Medical Specialty Societies, the American Society for Reproductive Medicine must ensure balance, independence, objectivity, and scientific rigor in all its educational activities. All individuals involved in planning or development of educational activities must disclose to the audience any commercial interest, financial interest and/or other relationship with any entity producing, marketing, re-selling, or distributing health care goods or services consumed by, or used on, patients. All relationships, whether or not they directly apply to a particular CME event, must be disclosed. All non-FDA approved uses of products must be clearly identified. Disclosures must be made to educational activity participants in the form of a slide, printed material, and/or oral statement for live and enduring formats.

**Commercial interest** is defined by ACCME as any entity producing, marketing, re-selling, or distributing health care goods or services consumed by, or used on, patients.

**Financial Relationships** are defined by the ACCME as those relationships in which the individual benefits by receiving a salary, royalty, intellectual property rights, consulting fee, honoraria for promotional speaker's bureau, ownership interest (e.g., stock, stock options or other ownership interest, excluding diversified mutual funds), or other financial benefit. Financial benefits are usually associated with roles such as employment, management position, independent contractor (including contracted research), consulting, speaking and teaching, membership on advisory committees or review panels, board membership, and other activities from which remuneration is received, or expected. ACCME considers relationships of the person involved in the CME activity to include financial relationships of a spouse or partner.

The intent of this disclosure is not to prevent an individual with a commercial or financial interest from participation in ASRM activities. The intent is to assist ASRM in resolving conflicts of interest that may create bias in ASRM activities.

1. **Interest in commercial organizations** (check and complete applicable section A, B, or C)

   A. I or my spouse/partner **has not had** during the preceding 12 months any commercial interest, financial interest and/or other relationship with any entity producing, marketing, re-selling, or distributing health care goods or services consumed by, or used on, patients.

2. **Participation in other medical societies/organizations** (check and complete applicable section A, B, or C)

   A. I **do not participate** currently as an officer, executive, board member, consultant, or in any other leadership role in any competing medical organizations.

3. **Participation in commercial interests** (check and complete applicable section(s))

   A. I or my spouse/partner **has not had** during the preceding 12 months a significant financial interest in, or arrangement or affiliation with one or more commercial organizations that offer services to, support and/or participate in ASRM functions or activities related to reproductive medicine.
I understand that I have a fiduciary responsibility to act in the best interests of the American Society for Reproductive Medicine and that this responsibility precludes me from using my position to obtain special advantage for myself, my relatives, my close associates, my business, or any other organization with which I am affiliated. I agree to abide by the ethical opinions and practice guidelines as outlined by the American Society for Reproductive Medicine.

Disclosures must be made to educational activity participants in the form of a slide, printed material, and/or oral statement for live and enduring formats.

Commercial interest is defined by ACCME as any entity producing, marketing, re-selling, or distributing health care goods or services consumed by, or used on, patients.

Financial Relationships are defined by the ACCME as those relationships in which the individual benefits by receiving a salary, royalty, intellectual property rights, consulting fee, honoraria for promotional speaker’s bureau, ownership interest (e.g., stock, stock options or other ownership interest, excluding diversified mutual funds), or other financial benefit. Financial benefits are usually associated with roles such as employment, management position, independent contractor (including contracted research), consulting, speaking and teaching, membership on advisory committees or review panels, board membership, and other activities from which remuneration is received, or expected. ACCME considers relationships of the person involved in the CME activity to include financial relationships of a spouse or partner.

The intent of this disclosure is not to prevent an individual with a commercial or financial interest from participation in ASRM activities. The intent is to assist ASRM in resolving conflicts of interest that may create bias in ASRM activities.

2. Participation in other medical societies/organizations (check and complete applicable section A, B, or C)

   A. I do not participate currently as an officer, executive, board member, consultant, or in any other leadership role in any competing medical organizations.

Disclosure of Relationships with ACCME-defined Commercial Interests

ASRM recognizes that directors, officers and committee members may have diverse professional and financial interests that could lead to actual, perceived, or apparent conflicts or dualities of interest. ASRM as a 501 (c)3 organization is subject to IRS, state laws, and other regulations requiring a high degree of disclosure and transparency; and as a result, maintains a Conflict of Interest Policy and Procedure to which I am subject.

As a sponsor accredited by the Accreditation Council for Continuing Medical Education (ACCME) and as a member of the Council of Medical Specialty Societies, the American Society for Reproductive Medicine must ensure balance, independence, objectivity, and scientific rigor in all its educational activities. All individuals involved in planning or development of educational activities must disclose to the audience any commercial interest, financial interest and/or other relationship with any entity producing, marketing, re-selling, or distributing health care goods or services consumed by, or used on, patients. All relationships, whether or not they directly apply to a particular CME event, must be disclosed. All non-FDA approved uses of products must be clearly identified. Disclosures must be made to educational activity participants in the form of a slide, printed material, and/or oral statement for live and enduring formats.

Commercial interest is defined by ACCME as any entity producing, marketing, re-selling, or distributing health care goods or services consumed by, or used on, patients.

Financial Relationships are defined by the ACCME as those relationships in which the individual benefits by receiving a salary, royalty, intellectual property rights, consulting fee, honoraria for promotional speaker’s bureau, ownership interest (e.g., stock, stock options or other ownership interest, excluding diversified mutual funds), or other financial benefit. Financial benefits are usually associated with roles such as employment, management position, independent contractor (including contracted research), consulting, speaking and teaching, membership on advisory committees or review panels, board membership, and other activities from which remuneration is received, or expected. ACCME considers relationships of the person involved in the CME activity to include financial relationships of a spouse or partner.

The intent of this disclosure is not to prevent an individual with a commercial or financial interest from participation in ASRM activities. The intent is to assist ASRM in resolving conflicts of interest that may create bias in ASRM activities.
