The authors' names will be printed in the program exactly as submitted (so take care to capitalize correctly). The co-authors are responsible for inputting their affiliation information and correcting any issues with their name or degree(s). ## **SUBMISSION REQUIREMENTS**

- Scientific data may be presented as a scientific abstract (oral or poster) and the corresponding methodology as a video; however, the two presentations cannot be identical and will be reviewed for duplication. If you wish to submit the data in both formats, in the online application check "A scientific abstract was also submitted for consideration as a separate oral or poster presentation. If accepted, the two presentations will not be identical."
- Acceptance for presentation of a video automatically conveys permission to ASRM for inclusion of the video in the Society's online library and a copy to be stored in the Society's in-house library in the Administrative Office.
- Selection decisions by the Committee are final. No changes can be made to the title, authors, or body of the video after submission. No changes can be made as to the date and time of scheduled presentation. Selected videos will be shown at the meeting in their original format as submitted for review.

## **AWARDS**

- The Committee will select an overall first prize award video (\$1,000.00), a second-place video (\$500.00), and a third-place video (\$500.00). Individual category recognition may be identified by a certificate. To be considered for an award, one author must be a member in good standing of the ASRM at the time of submission.

## **ABSTRACT EMBARGO AND PUBLICATION**

- **ABSTRACT EMBARGO:** ASRM asks that authors maintain an embargo on information in the abstracts, along with **any additional information that will be presented at the Congress, until the day and time scheduled for presentation at the Congress.** Abstracts that are included in ASRM's press releases for the Scientific Congress are

- All decisions by the Scientific Congress Committee are final. **Dates and times of presentations cannot be changed.**
- The primary/presenting author is considered by ASRM the main point of contact for each abstract. **This author is responsible for keeping their email contact information up to date within the abstract system.** If the presenting author fails to provide a working email, to check their email or spam filters for notifications, or to respond to ASRM directives via email notifications that result in their presentation not being presented, that is considered a failure to present, and the abstract will face the ASRM penalty regarding failure to present. Requests for changes to emails on file can be made to: [abstracts@asrm.org](mailto:abstracts@asrm.org).
